Interactive Display - Infrared Touch

Sharp PN-LC752

Boost engagement in learning environments

- Enjoy a natural writing experience with precise and responsive touch interaction through bonded screen technology.
- Get an out-of-the-box-ready experience with interactive functionality pre-installed; no external devices needed for an all-in-one solution.
- EShare boosts participation by wirelessly sharing content from your device to the display, and from the display to multiple devices simultaneously.
- USB-C connectivity instantly appeals to today's users who favour using their own device. A single cable transmits data, video/ audio output and power delivery for the simplest and seamless connection, even powering the connected device at the same time.
- HDMI-OUT allows connection of an additional output device such as a projector to present content on a larger canvas to reach a bigger audience.
