SHARP
Be Original.

Optimised working on the move.

Easily print how, when and where you want from any mobile device.

One of our suite of Optimised Software Solutions, Sharpdesk Mobile makes it easy to connect your phone or tablet to our range of award-winning office printers and MFPs.

There's no need to install any printer drivers and you don't need to use a cable. Simply download the free App for instant access to the all printing and scanning features that you'd expect when using a laptop or PC.

Optimise the benefits of mobile printing

We all have tablets and smartphones. They give us a lightweight, highly portable way to store and access huge amounts of information. As business tools, they are indispensable.

And with Cloud storage services, the ability to take presentations, reports, images and other important documents with you wherever you go is too good to miss.

But printing this information isn't always as easy as it should be. And that's where Sharpdesk Mobile comes in, unlocking the full benefits of mobile printing.

Once you've downloaded and installed the free App, simply connect to your Wi-Fi network in the normal way and choose from the list of available printers. You can select a document, preview it on screen, and print it out all in a matter of moments.

Do things your own way.

We all work differently, but Sharpdesk Mobile makes life easier for everyone.

Sharpdesk Mobile was created to optimise mobile working by making it easy to print from mobile devices. PDF, JPG, PNG, TIFF, E-mail, HTML (web pages) and Microsoft Office (DOCX/XLSX/PPTX)* files are all supported, whether they are stored on the mobile device or have been sent to you as email attachments.

You can even select multiple files for printing, saving time and leaving you free to collect your documents whenever it's most convenient.

It doesn't matter if your phone or tablet runs on Android, iOS or Windows. There is a version of Sharpdesk Mobile for everyone, and the experience is always familiar.

Scan directly to your phone or tablet

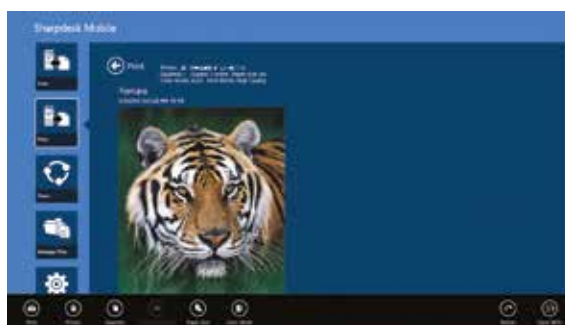

Scanning is as easy as printing. Load the document into the MFP and choose your mobile device as the scan destination. You can save it as a 'scan to' destination for one-touch access in the future.

Once you've scanned your document you can preview it, email it or share it with other applications. All it takes is a simple swipe and tap of a finger.

Open but secure

Sharpdesk Mobile makes your Sharp printers and MFPs available to your colleagues and visitors alike without compromising the security of your network.

Powerful multi-level authentication is used by the MFP, network and server to control and enable access by employees and guests.

Hassle-free printing.

* Microsoft Office (DOCX/XLSX/PPTX) files supported on limited models.

Specifications

Supported Mobile Devices

iOS^{*1} based mobile devices running iOS 10 - 12

Android based mobile devices running Android™ 4.4 - 8.1

Recommended screen resolution: 800 x 480 pixels and higher

Multi-window feature on Android 7.0 or later is not supported.

Sharpdesk Mobile Workflow

Welcome to Sharp

Sharp Information Systems Europe (SISE), a division of Sharp Electronics Europe, offers a comprehensive portfolio of award-winning document management and display solutions to help organisations transform the way they engage with information. Sharp's industry-leading MFPs and high volume systems sit at the heart of integrated applications for digital transformation.

Sharp's proprietary Open Systems Architecture (OSA) technology transforms MFPs into powerful information portals, seamlessly integrating to the cloud and third-party business applications. Sharp Cloud Portal Office is an award winning document management and collaboration system designed to help small- to medium-sized businesses drive growth, improve efficiency and reduce costs.

By facilitating the transition to new equipment, methods and processes, Sharp Optimised Managed Services help improve how businesses interact with information through enhanced digital workflows and more collaborative working.

Sharp also offer a range of display solutions that include video walls for immersive entertainment, digital signage and innovative interactive touchscreens for engaging presentations.

Our mission is to develop new products that support individual expression; creating life enhancing experiences that let you be original.

^{*1} Bonjour must be enabled to auto-discover supported MFPs. ^{**} Postscript Expansion Kit is required to print PDFs. ^{*3} PNG is not supported by Windows based mobile devices. ^{*4} Scan to and print from Microsoft Office (DOCX/XLSX/PPTX) files is supported on limited models.
